Creating Salary Keys

This document provides step-by-step instructions on how you can access The Work Number to perform two functions available to employees:

- a. View your free annual **Employee Data Report**, a record of your information contained on The Work Number database and a list of the verifiers who have accessed that information
- or -
- b. Generate a **Salary Key**, a single-use, six-digit code that you can provide to a verifier as consent to access your income information. *Note: In most cases, your consent is provided at the point of application for a service—when you sign a loan application or similar agreement—and a Salary Key is not required, but if you are asked to provide one, the below instructions will show you how.*

2. Click "Create Salary Key"
3. Provide the newly created salary key to the verifier, along with your employer name or code and your social security number.
